TOKEN DISTRIBUTION

TECHNOLOGIES / PRODUCT

- **TruePlay payment gate & player KYC/AML compliance** - Wallet is the shell of the ecosystem and the storage of tokens for its participants.
- **Game statistics** - Game statistics and verification of game data received by Operators from the Game Provider's
- **Honesty control** - Honesty control provided by blockchain technology
- **TruePlay High Performance Blockchain** - High-performance blockchain, which will eliminate current bottlenecks associated with the number of transactions per second, their cost and the size of data published on the platform.
- **TruePlay APK** - One of the most important problems for operators and game providers is delivery of the content from game providers to the end users with taking into account a large number of pirated copies of content.
- **Affiliate program** - To protect webmasters and ensure the transparency of all mutual payment, the TruePlay team is actively developing the affiliate program based on the benefits of blockchain technologies and smart contracts.
- **WhiteLabel** - Combining all the platform segments described above, the operator receives a high-grade and ready-to-use product.

COMPETITIVE ADVANTAGE

- 1 The first completely fair platform for real-time gambling projects: impossible to manipulate with RNG
- 2 The highest game speed among competitors due to smart combination of blockchain and offchain components
- 3 Working prototype at the MVP stage: TruePlay Wallet, User accounts, 92 games
- 4 Multiplatform capabilities, including mobile devices
- 5 Real transparency: all participants can check fairness at the MVP stage
- 6 Numerous complex games: poker, blackjack, casinos games, lottery games

HOW IT WORKS?

TRUEPLAY CREATES EASY TO USE, TRANSPARENT ECOSYSTEM FOR ALL STAKEHOLDERS:

- Gamblers will use the token to form payout fund for settlements with players, affiliates and game providers; for other actions on the platform
- Gamblers will make bets, deposits and withdraw funds using tokens
- Affiliates will receive affiliate discounts in tokens
- API for third-party game providers integration
- Game developers will get the token in exchange for games

ROADMAP

A number of functions are already implemented, which shows the capabilities of the platform:

TRUEPLAY WALLET

- The core of TruePlay Wallet is developed
- ETH Payments are integrated
- BTC Payments are integrated
- Smart contract for the release and management of TPLAY and WEB interface for managing a smart contract were developed
- An API for deposit and payment of funds from TruePlay Wallet to merchants (casinos, stores, etc) has been developed
- Custom WEB interface for TruePlay Wallet
- Registration / user authorization, basic KYC policy
- API for registration and authentication with TruePlay Wallet in external projects has been developed

MVP DEVELOPMENT

- The core of the MVP casino running with blockchain technology has been developed.
- Functions of publishing the hash series into the blockchain, stopping the series and generating the series were developed.
- Generating and integrating a series for roulette
- Generating and integrating a series for slots
- Generating and integrating a series for video poker
- API for deposit and payment of funds with TruePlay Wallet in MVP has been developed.
- Integrated games from Game Provider: Spinomenal

FURTHER DEVELOPMENT PLAN

Q1 2018

- Finalization of the Web application of the wallet for working with TruePlay (TPLAY)
- The first Trueplay presentation at the largest ICE 2018 profile exhibition, London.
- Development of a mobile wallet application for working with TruePlay (TPLAY)
- Testing and TPLAY clients auditing
- Implementing the API for connecting operators to the Trueplay platform
- Integration of payments and winnings payments using TruePlay in poker room PokerDom.com
- Launch of the Fairplay.io. This is the first project on the Trueplay platform. The project was developed in partnership with Gamingtec and is licensed to conduct gambling, issued by Kanawakee gaming commission. The project will connect the games of leading game providers to the platform: Evolution Gaming, Quickspin, Microgaming, Netent, Yggdrasil, PragmaticPlay.

Q3 2018

- PCI-DSS standard certification process
- Integration of the games from third-party Game Providers into the platform
- Own blockchain development
- Integration of reception of basic altcoins into TruePlay Wallet
- Documents submission for obtaining licenses required
- Connecting operators to the Trueplay platform
- TruePlay Wallet integration with crypto-currencies exchanges
- Creation of the network-wide jackpots with different prize pools for different games / betting ranges using smart contracts
- Launching the support service for users of the venues on the Trueplay platform

Q1 2019

- Start of commercial operations on own blockchain
- Development of an API for connecting projects to the Trueplay affiliate program
- Adding lottery games (keno, bingo, scratch lottery)
- Integration into the platform games from third-party Game Providers

Q2 2018

- Preparing for PCI-DSS certification
- Conducting Token Sale
- Designing and development of own blockchain: collecting requirements, tools selecting and creating project documentation.
- Development of a module for verifying game data coming from the game provider
- Publishing game transactions and statistics to the blockchain
- Design and construction of hi-load hardware complex, in order to ensure uninterrupted operation of the verification module.
- TPLAY listing on stock exchanges

Q4 2018

- Release the beta version of the own blockchain and test the full functionality of the platform
- Integration of games from third-party Game Providers into the platform
- Realization of various tournaments on the Trueplay platform
- Development and implementation of the affiliate program using TPLAY and distribution of funds through
- Smart Contracts
- Obtaining licenses
- Getting a PCI-DSS certificate

Q2-4 2019

- Integration into the Sportsbook platform
- Development and launch of the commercial Trueplay APK
- Connecting operators to the Trueplay platform
- Further filling the platform with quality content
