

LAUNCHING THE FIRST STREAM WITH COPYSTAKE

The image shows a woman with long blonde hair, wearing a purple hoodie and blue headphones, sitting at a desk. She is looking at a computer monitor. The monitor displays a slot game interface on the left and a game round history table on the right. The slot game interface shows a grid of symbols, a 'TUMBLE WIN €10.80' message, and a 'WIN €6.15' message. The game round history table has columns for Time, Game, Amount, and Type. A microphone is visible in the foreground, partially obscuring the table.

Congratulations on becoming a streamer on the platform!

To kickstart your live streaming journey, we'll walk you through some simple steps to launch your first broadcast.

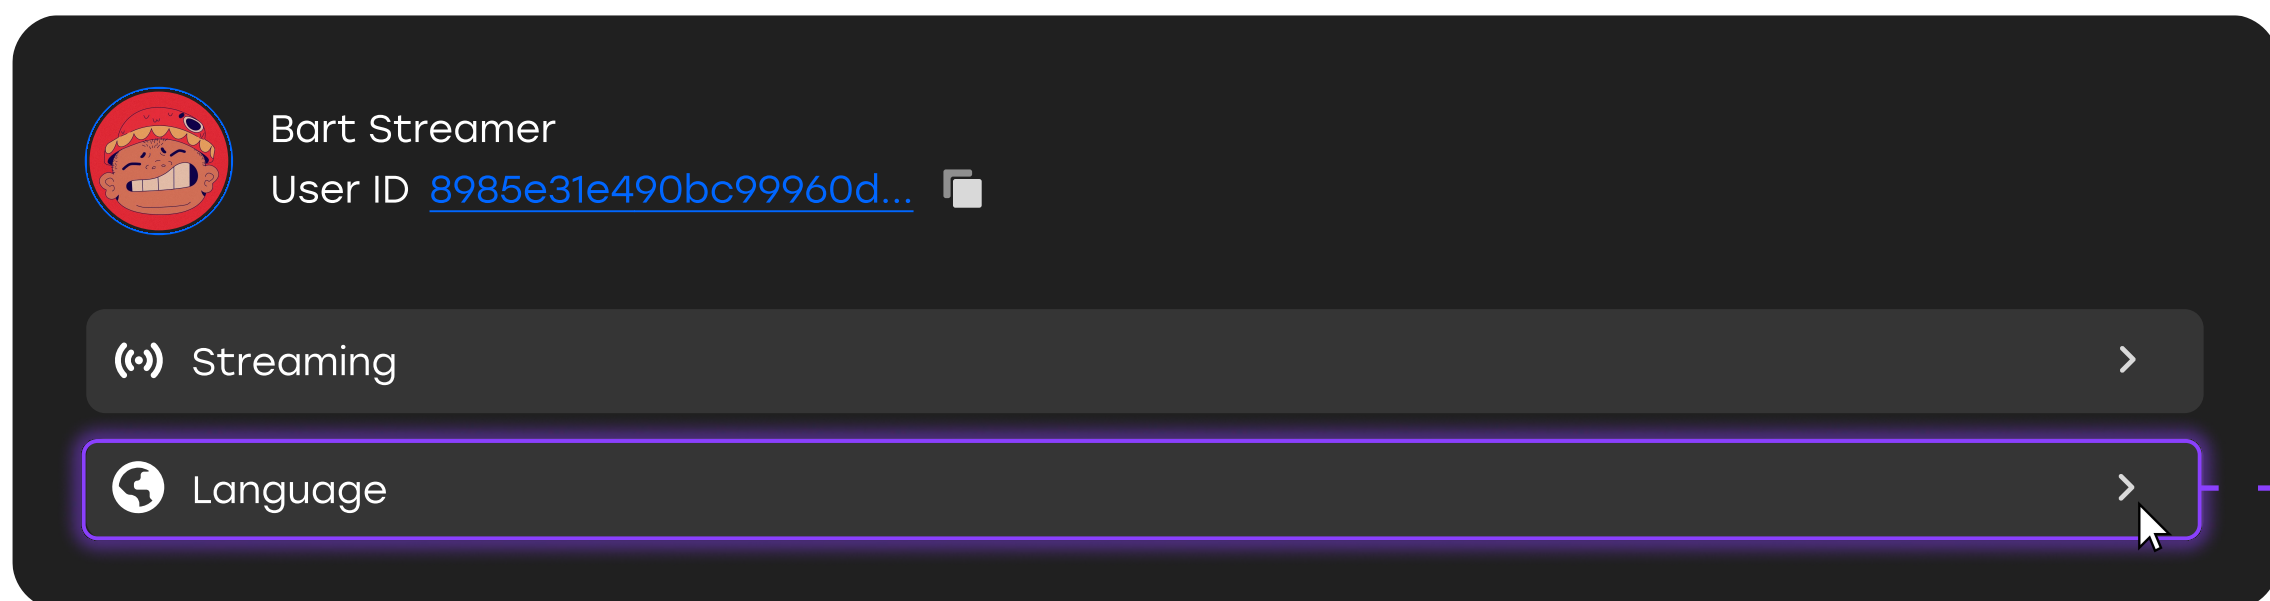

ACCOUNT IN THE LOBBY

First, head over to the **Account** tab at the bottom of the **Lobby**

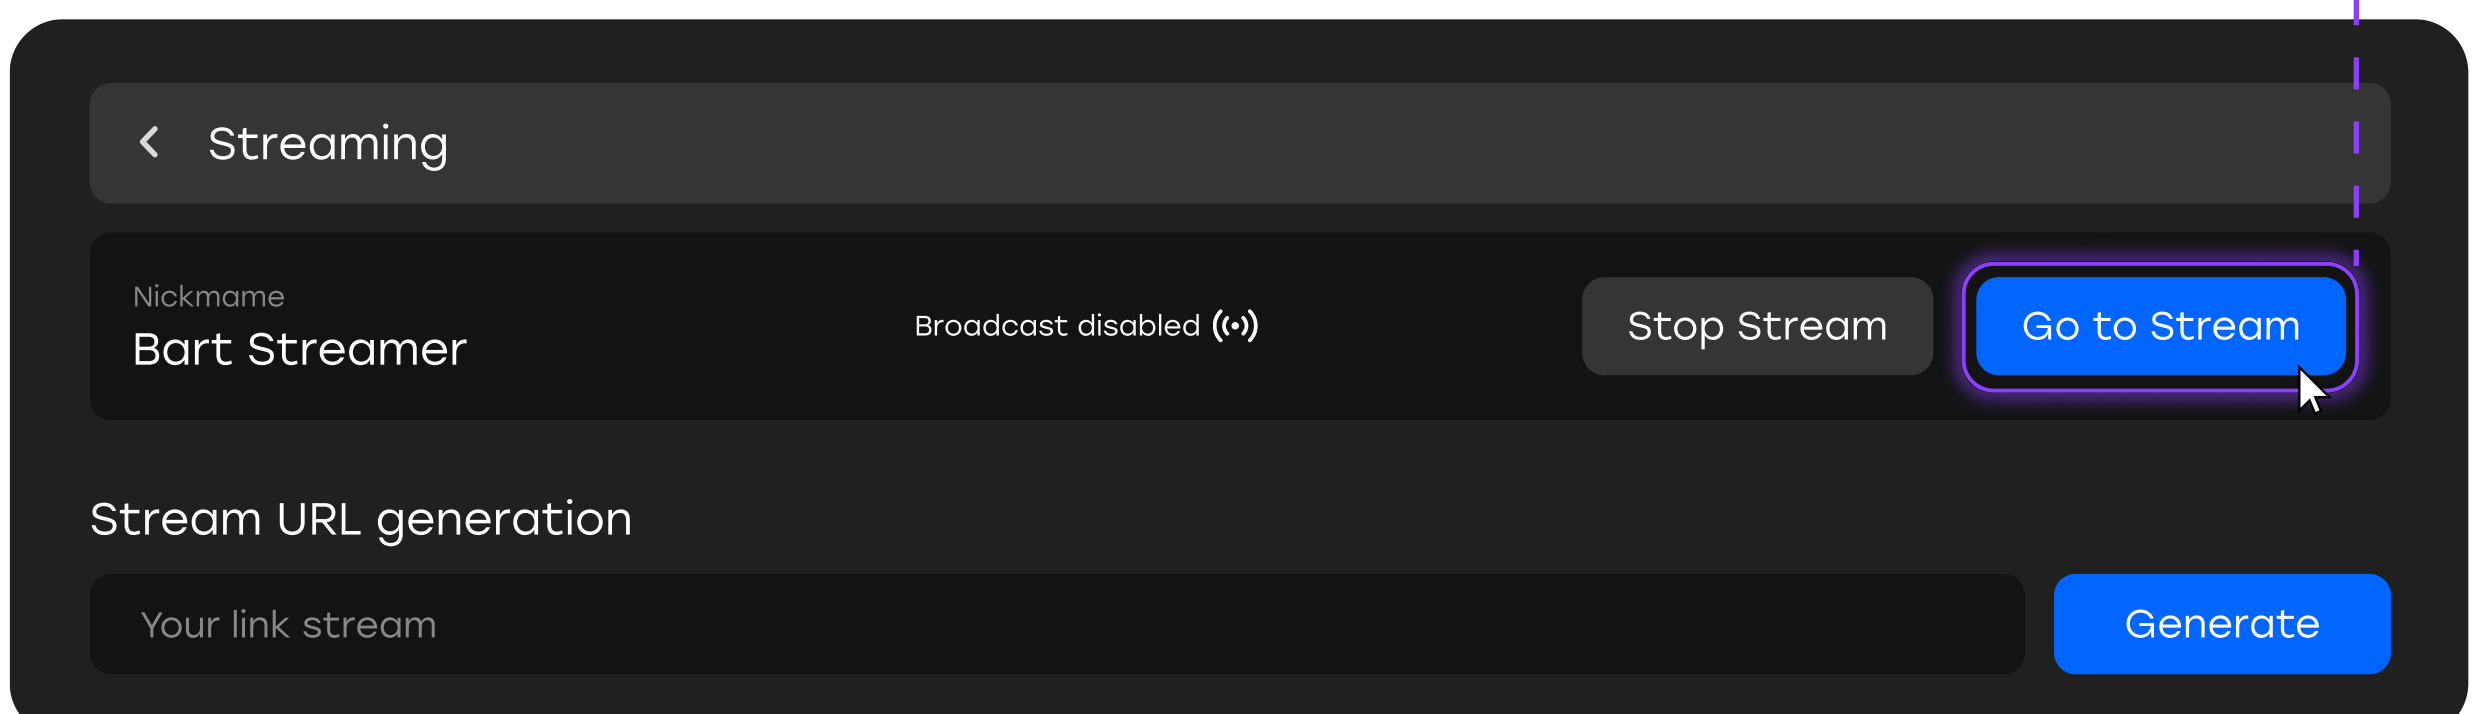

START STREAM

Next, go to the **Streaming** menu, hit the **Start Stream** button, and wait for the broadcast to begin. It might take up to a minute, so please don't leave the page

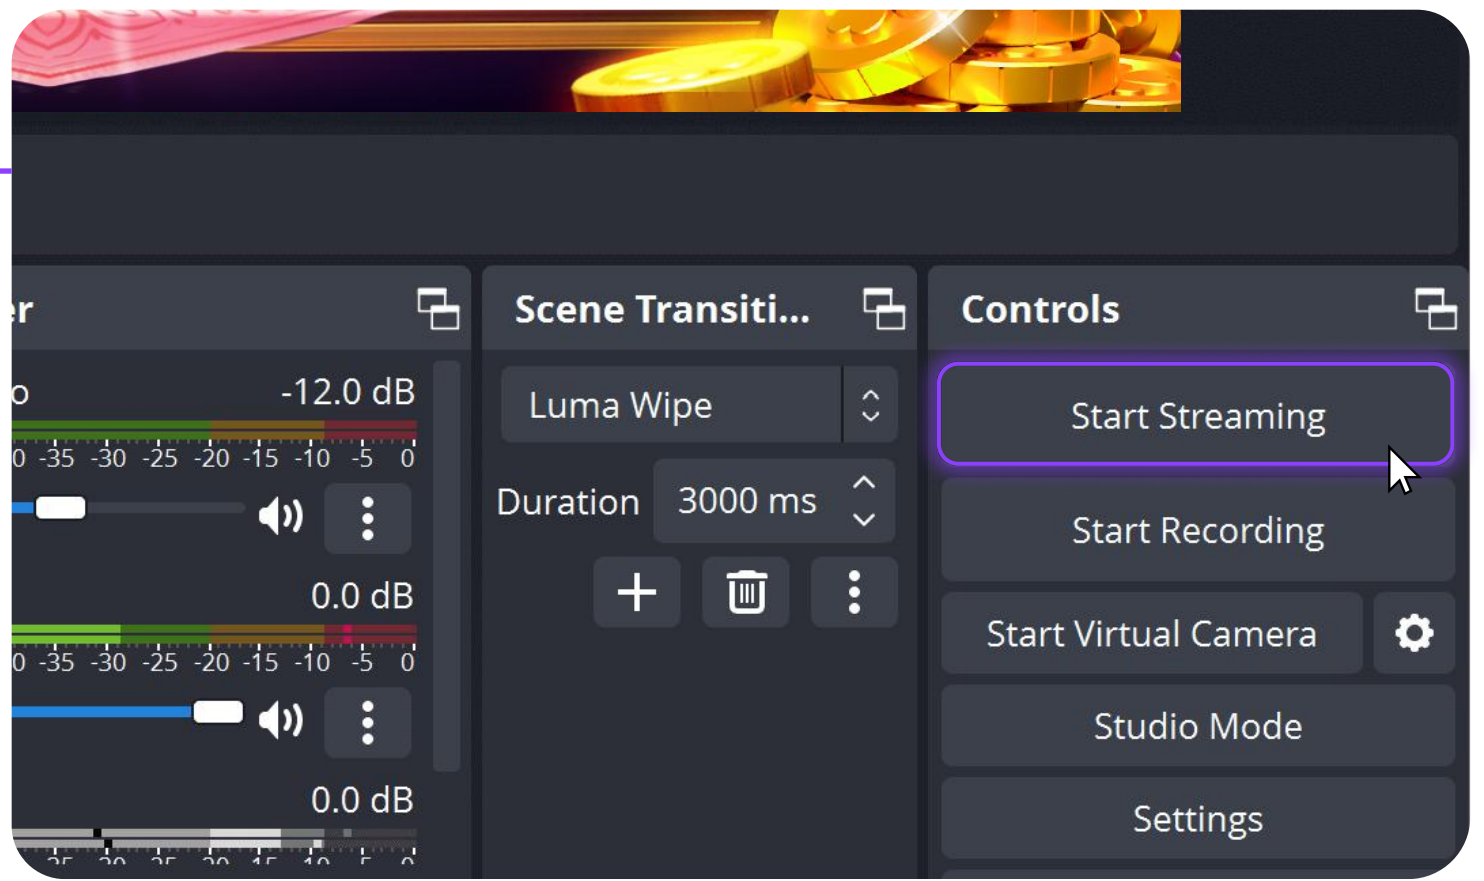

GO TO STREAM

You can ensure everything is working fine by pressing **Go to stream** — the stream will open in a new tab

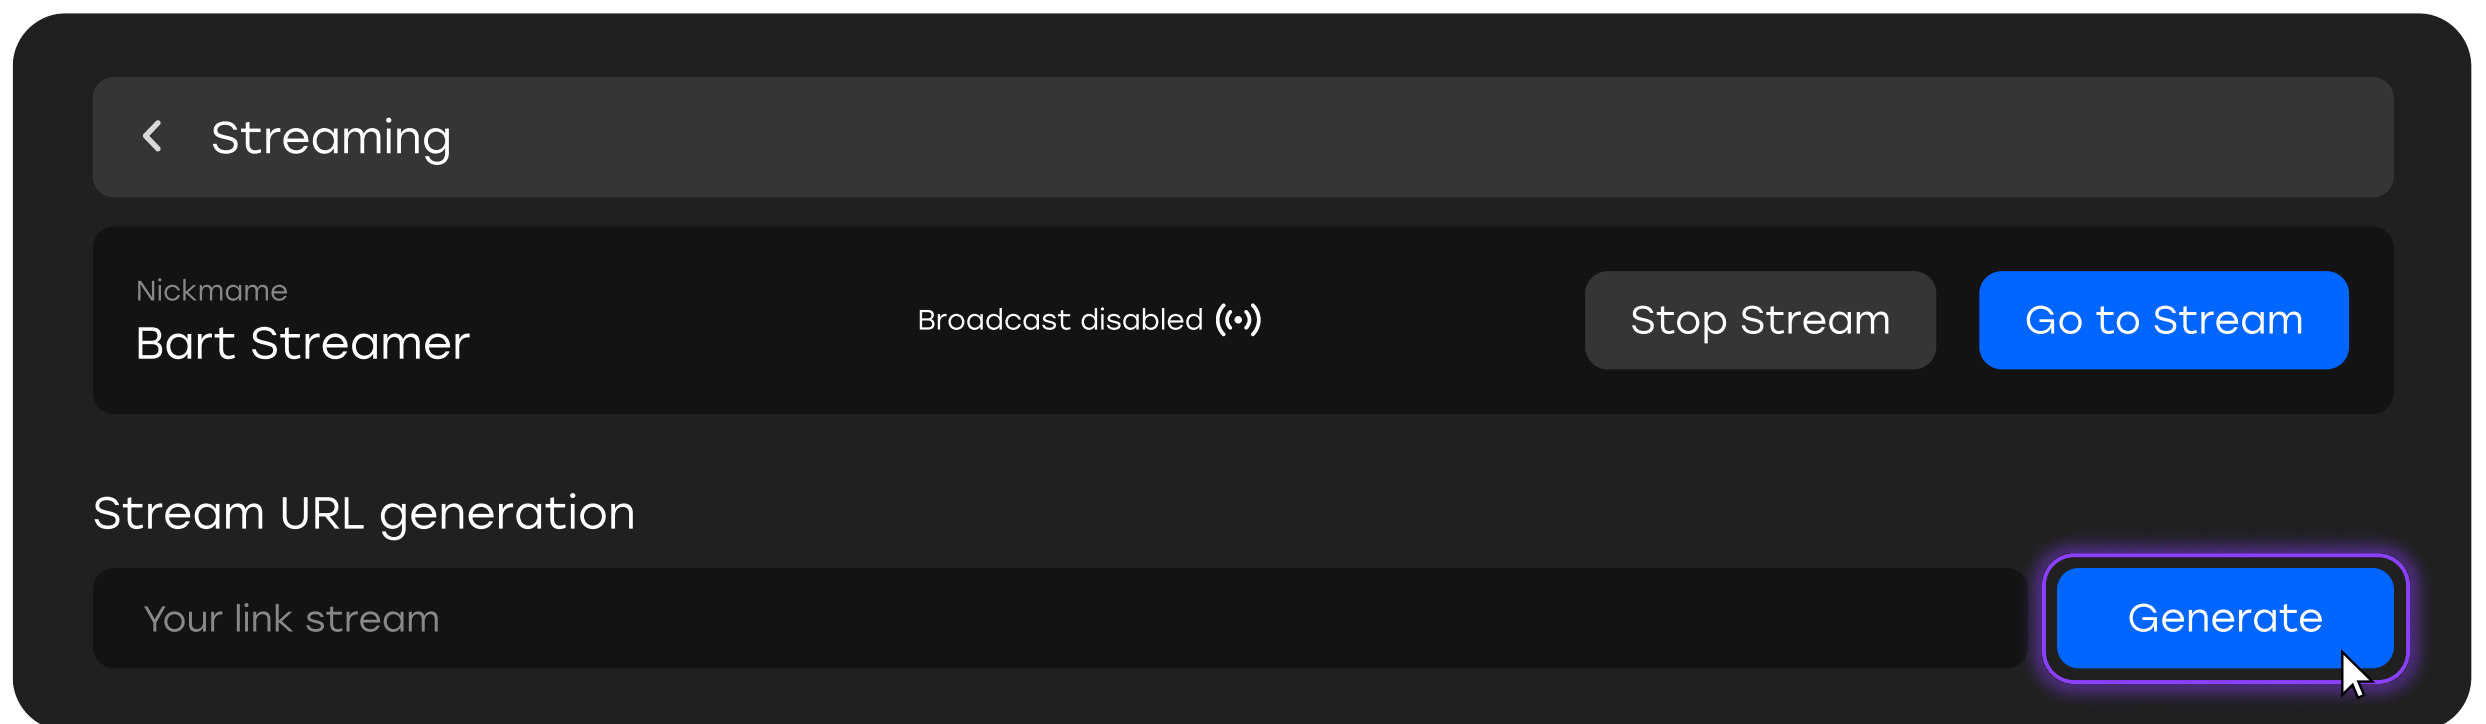

RUNNING A STREAM IN AN OBS PROGRAM

Once you start the broadcast in CopyStake, you must run a video stream in your **OBS program**

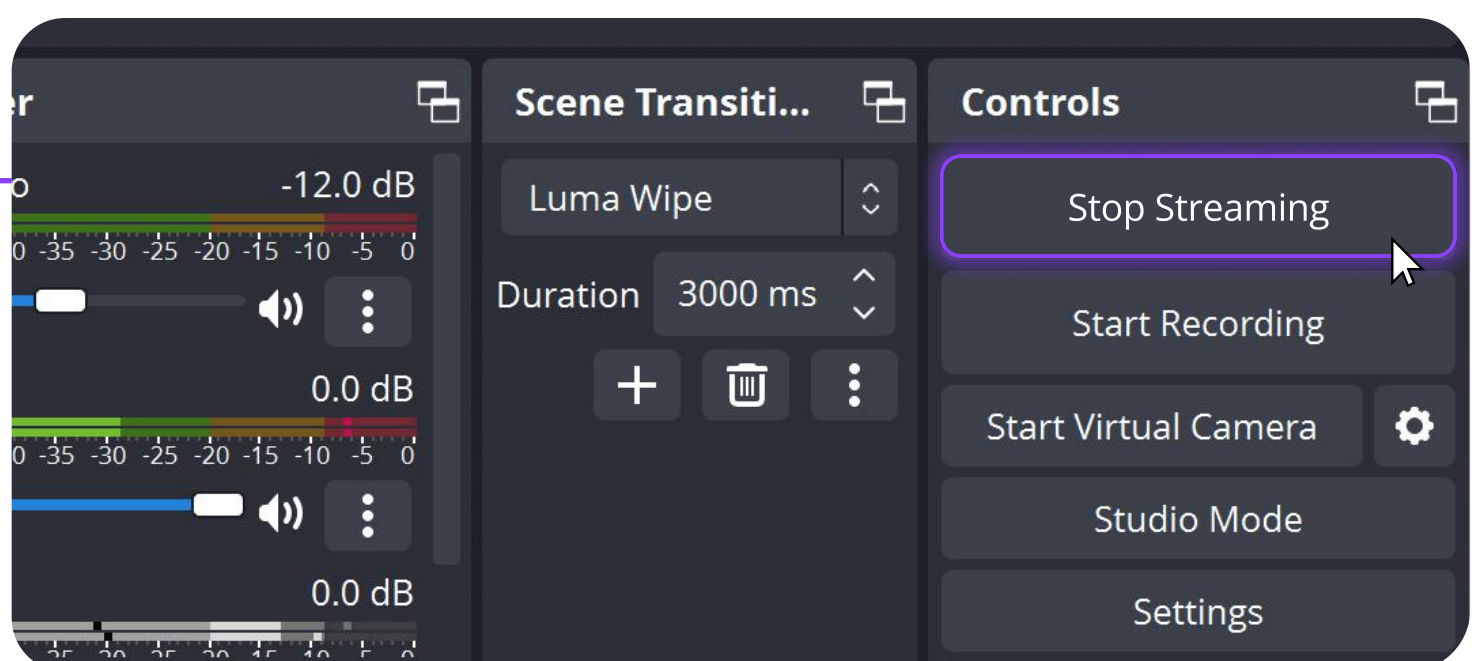

GENERATING THE LIVESTREAM LINK

You can also **generate** a direct link to your stream and share it with the audience

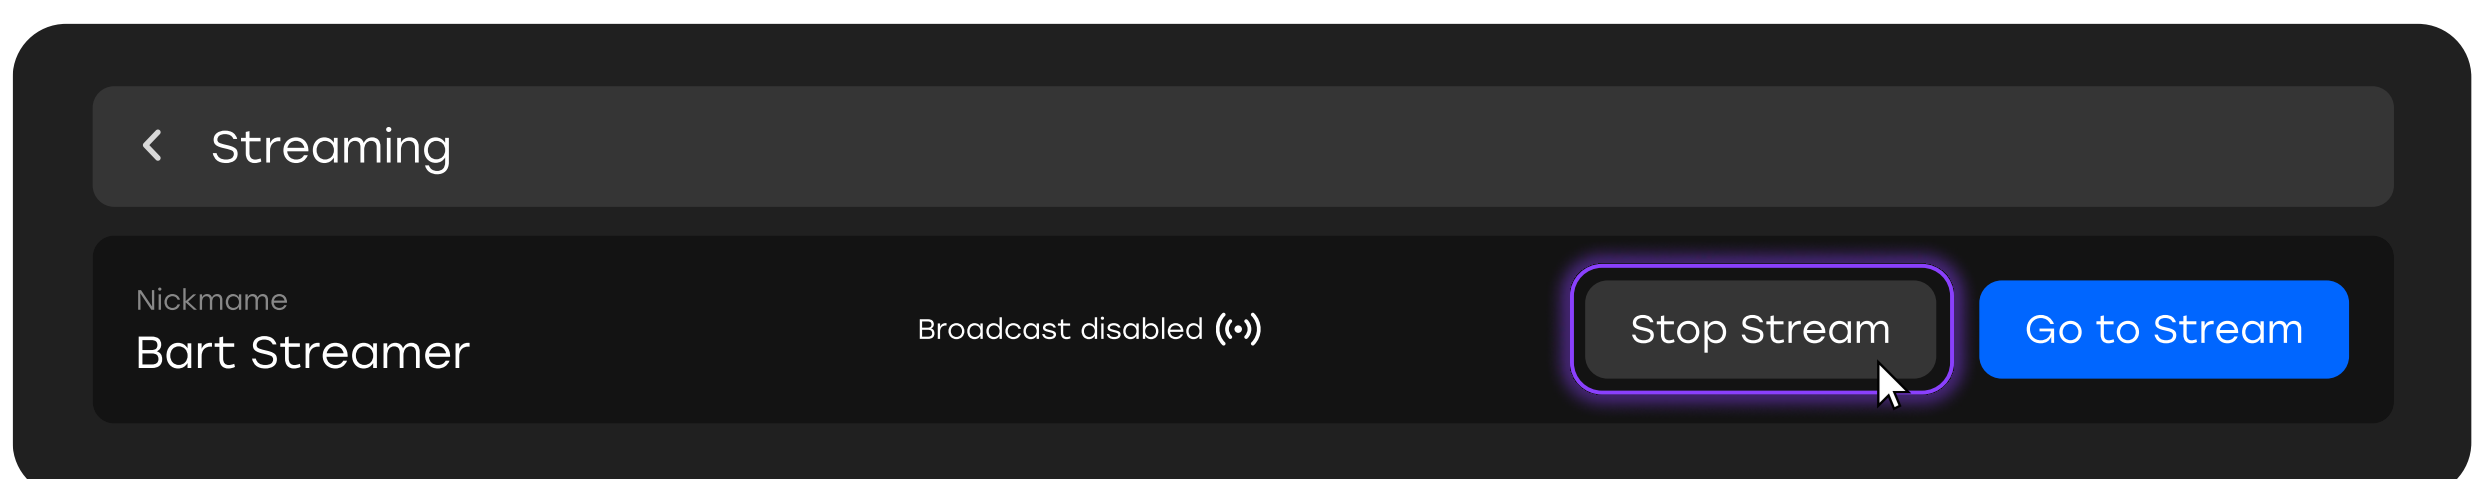

STOPPING THE LIVESTREAM IN THE OBS

After you finish your live gameplay session, stop the broadcast in OBS

FINISHING THE LIVESTREAM IN COPYSTAKE

Then navigate back to CopyStake and press **Stop Stream**

And there you have it — streaming with CopyStake is a piece of cake, isn't it? Now, set up your streaming settings. **It's time to have fun!**
