Getting additional tokens while playing is nice, isn't it? Making your casino balance work for you is even better! Meet Hold to Earn.

## Hold to Earn

Hold to Earn brings passive income to iGaming platforms. Players who put tokens aside for a selected time get a share of the casino's revenue generated during this period. Revenue statistics are displayed in the **Casino Income** chart.

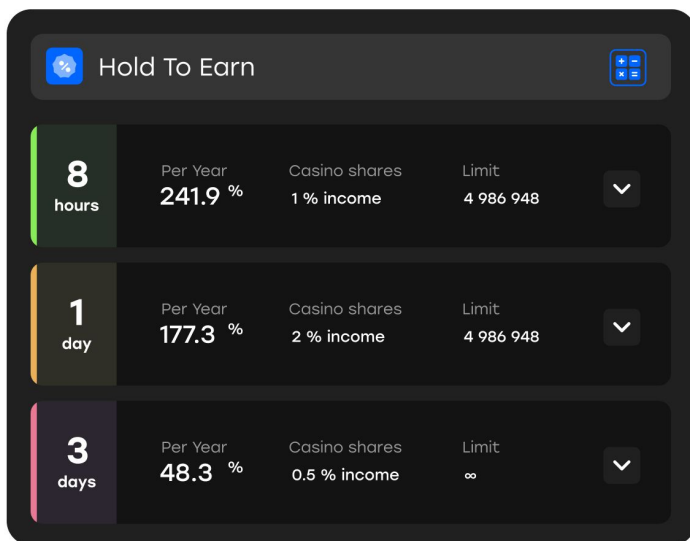

You can also view stats by week and month. For that, press an **up arrow** icon and apply the needed filter. You can use this view option to decide when to activate a token-freezing program and maximize your gains.

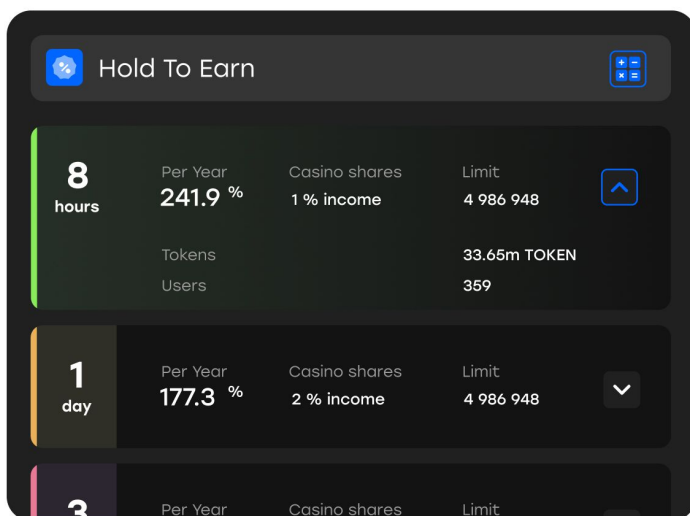

## TOKEN FREEZING PROGRAMS

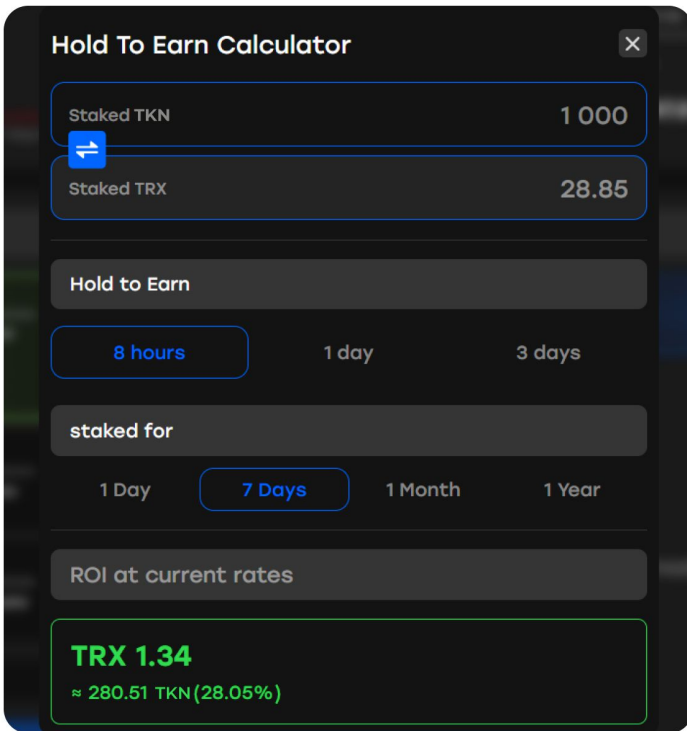

1. You can choose among programs with three holding periods: 8 hours, 1 and 3 days. Besides the duration, they differ in profitability: yearly profit and the share of casino income paid to participants.

2. By pressing an up arrow icon, you can expand each section to see how many users currently hold tokens and the total amount of tokens frozen in this program.

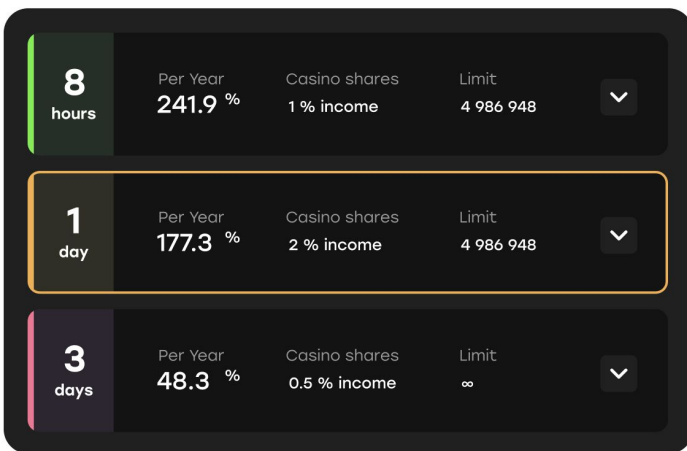

3. You can estimate your Hold to Earn gains with a calculator. Click its icon to use it.

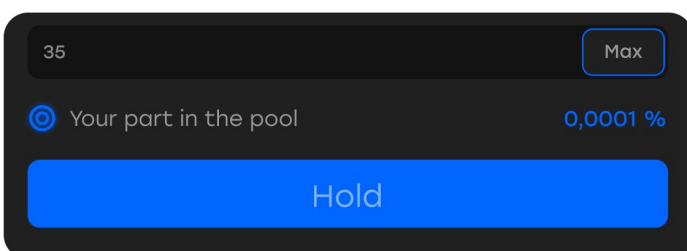

## CHOOSING A PROGRAM

1. Once you decide on the program, press on it.

## ENTERING TOKEN AMOUNT

2. Next, specify how many tokens you wish to set aside and press **Hold**.

## YOUR PART IN THE PRIZE POOL

The portion of a prize pool you can receive increases with the sum you aim to freeze. For example, the casino is distributing \$500,000. If you freeze 1000 tokens, which is 0.003% of the pool, \$15 worth of tokens will be yours. And if you hold 600 tokens, which is 0.0018% of the pool, you will get \$9 worth of tokens.

600 Max  
Your part in the pool 0.0018 %

1000 Max  
Your part in the pool 0.003 %

## TRACKING HOLD TO EARN EARNINGS

You can watch your earnings in real time in the dedicated tab at the right corner of the page.
